About

Founded in 1980, Goater has decades of experience in forward-looking design and flawless craftsmanship that creates unsurpassed kitchen solutions.

We strive for innovation with an obsession for detail and an unrelenting focus on quality.

From design to installation, at every step of the process, we create unique value, delivering living kitchens that incorporate eco-friendly wood and top-quality fittings.

With an elegant appearance and smart functionality, we listen to customers to realize exclusively customized kitchen designs that precisely meet their needs.
Superior Artworks!

Goater, Irreplaceable!

Advantage

Professional kitchen cabinets manufacturing factory:
We have our own professional factory and operation headquarters in Taiwan to monitor quality and control.

Professional SOP Assembly Process:
Our assembly process follows a rigorous Standard Operating Procedure (SOP) that includes the following steps: Incoming Inspection, Assembly Production Line, On-Site Calibration, Quality Management, and Shipping Packaging. This ensures precision and efficiency in every stage of production.

State-of-the-Art Mechanical Equipment:
We employ professional woodworking machinery in conjunction with skilled technical personnel to enhance work efficiency, production capacity, and product quality.

We strictly select environmentally friendly and low-formaldehyde panels:
We select European-imported E0 panels to ensure your health is protected. (E0 formaldehyde standard: ≤ 0.5 mg/L, compared to CARB P2).

1 Earthquake Safety Latch Option

Imported from Japan, this latch automatically locks the cabinet doors during an earthquake, preventing items from falling out and ensuring safety.

2 Cabinet Dust Seal Option

Japanese-style dual-layer anti-cockroach system to keep the interior clean and maintain dishware hygiene.

3 *blum* Hinges Standard

Premium BLUM three-way adjustable hinges feature a built-in soft-close mechanism, allowing cabinet doors to open up to 95 degrees and support over 5kg.

Certification

Rooted in the concept of "home," we prioritize your home living quality and are committed to using high-quality environmentally friendly panels. These panels meet the E0 standard for the lowest formaldehyde content and the highest moisture resistance coefficient. They have undergone multiple SGS inspections and comply with both domestic and international environmental certification standards, ensuring your health while promoting environmental sustainability. (E0 formaldehyde standard: $<0.5\text{mg/L}$ compared to CARB P2)

#01 Plymouth

#01 Plymouth

North America serves as the starting point for Goater's overseas adventures, symbolizing a fearless voyage. Stepping into "Plymouth" feels like boarding a ship with sails raised high, ready to embrace the winds. The curved upper cabinets present the image of sails billowing in the wind that elegantly guiding the vision toward the horizon.

The central wood-grain cabinet resembles a watchtower, standing tall to witness every Goater adventure and showcasing a firm vision for future designs.

The bottom cabinets combine natural wood grains with warm, creamy panels, creating a harmonious and cozy home atmosphere. This design moves away from the coldness of metallic finishes, returning to the warmth of nature.

The island cleverly integrates the imagery of a ship's railing and deck. Its solid and fluid design brings both functionality and aesthetics.

[More](#)

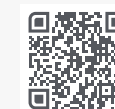

#02 Navy

The Navy series is designed with various age groups in mind, featuring spacious aisles and windows that let warm light pour in, fostering emotional connections among family members.

The cabinet panels are made with FENIX innovative technology, offering a warm and silky-smooth touch, with minor surface scratches easily repairable through heat, restoring the surface to a like-new condition.

More

#03 GREENWICH

#03 GREENWICH

Charming and lovely smile can be seen while River Thames flows through the Greenwich, a symbolic and historical city in London. The original design concept of curve shaped “Greenwich Series” was coming from there.

Red brick wall brings out the atmosphere of Victorian era, a remarkable Industrial Revolution that lead the industry and life into a modernized new age.

Retro classical outlook figured with modern functional equipment and eco-friendly materials, from “Greenwich”, you won’t feel the conflict of age, but rather a cultural fusion, leading Kitchen life into a new style of enjoyment.

#04 LEAVES

LEAVES series kitchen features classical framework design paired with wood grain patterns, presenting a perfect interpretation of modern countryside style.

The open island incorporates a washing area, not only providing workspace but also fostering closer interaction among family members. Each drawer's arrangement of utensils and seasonings is meticulously designed, allowing flexible adjustments according to your preferences, ensuring a perfect fit for your specified size and needs.

#05 CHEERFUL

The CHEERFUL series, which is effortlessly compatible with the modest lifestyle, suits any style and space.

The door panels are made of Taiwan standard F1 grade low formaldehyde environmental protection materials(MFC), with light and natural wood grain tones, which can be matched with any style and space, allowing people to unleash their creativity and enjoy the joy of life in cooking.
